

Hercules Insulated Bodies

Custom Built by the Specialists at Hercules for over 100 years

Hercules has been setting standards of excellence since 1902. *With over 100 years experience as the custom body and refrigeration specialists*, developing a design to meet your needs is not only our primary goal, it is our proven area of expertise. Our experience shows in Hercules' lower body weight and plate systems that save dramatically on fuel consumption. Cost-effective "green" refrigeration systems are in fast track development to keep Hercules' equipment on the leading edge of technology. And, we *listen* so that we can build *what you really need with the best options for you!*

Most manufacturers will offer service, but, what kind of service? Hercules offers friendly customer centered service tailored to *your* needs. And quality... Hercules quality is second to none. Our equipment... now that is our pride and joy! *How may we serve your needs?*
